

HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.

Mr. Houston Murrell, Merri-mac, was in town Tuesday. He reports that L. Bell Murrell has been appointed postmaster to succeed F. H. Durham, who will move with his family to Columbia to take charge of the produce business of S. H. Grinstead and Co. Mr. Durham has made good in the business world, and he and his family can be recommended as substantial citizens.

Gwin & Atchley will order a crusher at once to grind limestone for the farmers. Quite a number of farmers have given them encouragement, and it is a matter of a few years when commercial fertilizers will not meet with such large sales. Farmers are studying and experimenting, and have found out how to apply

modern scientific methods in the cultivation of their lands.

Robert Cofer sold one four year old horse to Chester Fisher, for \$165.

This week gave the farmers an opportunity to finish their butchering. Quite a number have sustained heavy losses in a recent killing. Almost every one will have to practice economy for the coming year. A Check may be beneficial to many. Some people know no end to extravagance.

A great number of the public schools have closed, and many children will not have the opportunity of continuing their studies until next summer. The attendance has been better than usual. R. H. Turner, who taught at Elkhorn, says he averaged sixty-three for the term. A live teacher could organize a first-class school there for the winter months.

Misses Clara and Lou Griffin are going to attend the Bowling Green Normal after the holidays. They are progressive teachers, and are not satisfied unless they can present the best methods of instruction to their pupils.

Mr. W. I. Kucker, postmaster at Burdick, is in a critical condition at his home. A complication of diseases caused him to take his bed.

It was the only thing akin to sensational that has happened in our village for some time. The grand jury will receive due notice of the altercation.

Christmas festivities have begun early.

Our merchants have not stock-up as heavy as usual, and the indications are that the holiday trade will not be rushing. Business people are not soliciting credit trade as usual, as they know it will be quite a while before the farmers make up the deficiency.

Dr. Heiston, of Merrimac, was in town Saturday. He is a member of the Educational Board, and was there relative to a meeting of the same.

The prospects for wheat and rye are very flattering. Both have a good growth to withstand a hard winter.

Quite a number have sold their tobacco, and prices are satisfactory where quality is up to requirements.

Mr. O. B. Finn, Elkhorn, has had a public sale. He has bought a farm in Florida, and is enthusiastic over his new home. We hope that it will meet up to his fullest expectations.

Prof. B. F. Russell, Saloma, is instructing a class in vocal music at Liberty Church. He is well qualified in the fundamental principles, and has been teaching for seven years.

Mr. F. H. Durham butchered a duroc hog weighing 750 pounds. Circuit Court begins the first Monday in January.
